

SECURITEX-VIKING-RED-PHONE (HOTLINE PHONE) Industrial Application

The Securitex-Viking-RED PHONE is made in USA by Viking. This phone is design for use in emergency situation where the user need to call for help. Usually this phone are install in fire command centre or oil and gas industries control room where the operation staff when in emergency need to contact another party for assistant, the caller just need to lift up the handset and the **RED PHONE** will dial the preprogrammed phone of the other party (Receiver). This **RED phone** can be supply without the incoming ringer so this phone will only be use as **outgoing call**. However if incoming signal is needed, a ringer can be installed. These **RED PHONE** or **HOTLINE PHONE** or **EMERGENCY PHONE** are design for indoor application and is powered from the PSTN line, if the phone is needed to be install outdoor, then an external IP65 enclosure can be incorporated.

Economical and Vandal Resistant Hot-Line Phones The K-1900 Series of Hot-Line phones (RED PHONE) are programmable to dial a 1-32 digit telephone number each time the phone's handset is lifted. The products may be programmed to Touch Tone or pulse dial and will not dial on incoming calls. **(if you need the phone to ring on incoming please specify when ordering)**

The K-1900 Series phones are available in a desk or wall chassis, as well as in a vandal resistant panel phone configuration. A network insert dialer is also available, to convert standard phones into hot-line phones.
