Securitex Traffic Signaling Device

FEATURE / BENEFITS

- Reduce overall operating & maintenance costs: Energy saving:90% reduction in power consumption vs. incandescent

- Reliability & traffic safety: Improved visibility over life of the product Reduces emergency lamps outs Design minimizes sun phantom effects

- Easy to install into existing signal enclosure

The Securitex WT-TL3+1 was develop to assist industry to manage their remote signaling need by ensuring that the device is easy to install and very low maintenance in future. This product are specially use for traffic lights application but it can also be use by other industry like marine and aviation to custom make for their special application.

SPECIFICATION

Single 3 aspect, c/w PC housing and mounting bracketry
200X200mm cobweb lens
High brightness LEDs with integrated optic
LED Rated lifespan 100,000 hrs
Ingression protection IP67
Operating temperature -30 degree -+60 degree Celsius
Operating Voltage 12VDC
Housing material Polycarbonate
Dimension 760mm X 260mm
Weight approx 2000g

200mm full ball LED traffic light assembly comprising RED, AMBER and GREEN colored light source.
