

SensorCard II™ Multiple Technology Card

The SensorCard II Multiple Technology Access Card combines HID's proprietary Wiegand technology, magnetic stripe technology and photo identification on a single card. The SensorCard II provides a solution for companies desiring to use one card incorporating Wiegand, magnetic stripe and photo identification technologies for multiple applications.

The SensorCard II multiple technology card meets ISO standards for thickness so it can be used with all direct image printers and magnetic stripe readers.

The SensorCard II multiple technology card is another example of HID's long-term commitment to responding to the needs of the access control marketplace.

Specifications
