

Guardman TC-102S

Remote control locking system

The **Guardman TC-102S** locking system is one of the most innovative locking system in the world ever develop by a group of professional electrical and mechanical engineer together with locks smith. This locking system is so robust and elegant that it can be used in any kind of interior deco. This lock can be install on wooden, metal and even glass sliding as well as swing door. As the Guardman TC-102S uses a remote control to open and lock the door, thus it is very convenience to open the door even from a distance. Guardman TC-102S can be install together with any home automation system. It truly is one of the most innovative systems in the world

Secure:

With wireless remote control type employed, Guardman TC-102S virtually impossible to penetrate because there are not key hole or perception gadget exposed on the outside of the door. (The remote control system are embedded with 3.2 billion secret codes)

Convenience:

The one touch remote control makes it easy to open and shut the door anywhere inside and outside the home. This is convenience especially at night and when carrying goods. Also it is very convenience for children, elderly and handicap to operate the system.

Economical:

First in the world, Guard man TC-102S can be install on both right and left hand doors. As the system is easy to install it can be detach from one door and move to another door without a locks smith or carpenter.

Reliability:

Guardman TC-102S was awarded the Korean patent (No. 263981) In addition it also secured the C.E mark for exporting to Europe.

Assurance on the locking system

In the event of flat batteries the lock will give out a buzzer sound 5 times. If nothing is done to replace the batteries the buzzer can continue to sound for 20 days before the batteries expires. During this time the lock can still be used. Once the 4 batteries are totally flat. The internal battery will be on standby to allow the lock to open 1 time only and cannot close again until the batteries are replace.

Guardman TC-102S accessories

The above locking system can be used together with access control system for added security. It can also be interface to home automation system.

No	Description	Specification
1	Model	TC-102S
2	Colour	Titanium
3	Power source	DC 6V AA (Batteries)
4	Remote control distance	25 metres
5	Low voltage detection	Time to replace batteries
6	Remote Controls Provided	4 each PC 12V A27 (6 to 10 can be added)
8	Specification	96.5(W) X 200.5(H) X 45.5(D) mm
9	Temperature	30 to 70 degree C
10	Warranty	12 months from date of purchase
11	Material	Aluminium Casting
12	Remote duplication	Impossible
13	Keyhole exposure	No exposure what so ever out side door
